

ZIRCON

CREM[®]
EXPOBAR SINCE 1985

FOUNDATION MODEL

The Zircon by Crem is an entry level machine for those who need reliability in a foundation model. Durable stainless panels give the Zircon a robust feel at an affordable price.

Hand built by skilled professionals, with only the best quality components, this machine demonstrates Crem's strong attitude towards quality craftsmanship and technology. User friendly features include illuminated touch pad buttons to control the dose of coffee at the touch of a button, direct pre-infusion, steam pressure gauge, automatic boiler refill and back-flush program for each group.

The electronic switchboard helps control the dosage of coffee through 5 selection buttons, located above each group. These allow you to dispense the right amount of coffee at the push of a button.

Simple, functional and ready to work for you.
